1. While operating the lifts try operating fastSixes,fastEight,trams more than the rest of the method.
2. Night skiing seems to have very less impact on the end prices and needs to be reviewed. A deep dive into Night Skiing has to be made.
3. Terrain parks seem to have the least impact on the price ticket. Closing the Terrain parks might save revenue for the resort.
4. Longest mile has a negative impact on the ticket price, a deep dive into people using the longest mile might give actionable insights.
